Patent
254/304Please replace pages 18-22 as follows:

Please replace the text on original pages 18-22, entitled "TABLE 1" through "TABLE 5," with the attached pages. There is no significant change at all in the text of these pages; they simply have been re-typed to present more clearly the information in the tables. The clean replacement pages 18-22, on A4 paper, were left with the Examiner at the Interview October 24, 2001. Copies are attached at the end of this Response and Amendment.

IN THE DRAWINGS:

Two Formal Drawings, labeled Figures 1 and 2, and four new sheets of Formal Drawings, labeled Figures 3-6, were left with the Examiner at the Interview on October 24, 2001; copies of all six Formal Drawings are submitted herewith. Figures 1 and 2 were simply submitted in Formal. Figures 3-6 were submitted, as discussed above, to replace the Charts 1-4 found originally in the specification at pages 23-26. This is solely for the purpose of moving the charts from the text of the specification to the drawings. The charts were also re-done from the originals, which otherwise would be informal, rather than formal, drawings.
